

## 2017 FSEMC Technology Workshop

Monday, September 18 1300-1600

### Industry Hot Topics:

*Benchmarking Flight Simulator Technologies - Where to Next?*

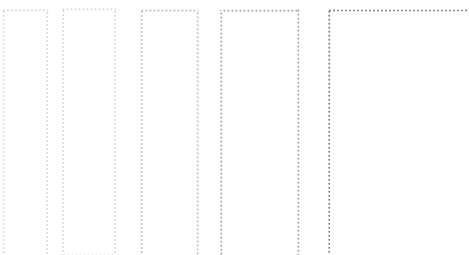

*Configuration Management – Hardware/Software, Databases, and QTGs*

*Other Training Devices (Everything not an FFS)*

*New technology applications (Virtual/Augmented Reality)*

*Tailoring training to appropriate levels*

For those that wish to attend, the FSEMC welcomes you to discuss these challenging issues that the flight simulation industry is facing today, as well as in the future. This pre-conference is open to all and will be open dialogue in an informal format.

**2017 FSEMC — Plan Now!**  
**September 18-21**  
**Memphis, Tennessee**
